Where international, state, and/or county boundaries coincide, the map shows the boundary symbol for only the highest-ranking of these boundaries.  
1 A "++" following a place name indicates that the place is also a false MCD; the true MCD boundary is not shown.  
2 In 1990, the census-at-sea vessels population of ships at sea was allocated to census tracts with a "99" suffix. An anchor appeared on the 1990 map, indicating a census-at-sea tract. This map shows the area symbolized as a census tract with the census tract number shown near the area.
